

# H04

Ready to carry up to 30 stones, the H04 is the true heavyweight in our stable – longer, and wider than any other Freerider and as robust, rough and ready as the FR1.

## ROUGH & TOUGH

Dirt tracks, uneven ground and muddy puddles, are nothing to the H04 .

## BUILT TO LAST

Sturdy double wishbone suspension to the front, twin shock absorbers to the rear, high ground clearance and 75Ah batteries make the H04 strong enough to last, whatever you expose it to.

## READY FOR ANY WEATHER

With a water-resistant LCD dashboard, fixed twin mirrors and indicators you can see clearly whatever the weather, with your waterproof at the ready in the handy carry bag.
