

S01

The S01 is the faster edition of the FR-168-3. It is a middle sized mobility scooter with a low entry and perfect for consumers who find regular sized scooters too big or a foldable one too small. Because of its small turning radius you can propel effortless through shops and small streets. The FR-168-3S has a luxury chair and is suited for longer distances because of the 40 km range and maximum speed of 13 km/h.

Perfect middle sized mobility scooter

Very manoeuvrable, small turning radius

For indoor and outdoor use

Lots of legspace
